

WE DO NOT WANT to receive unwanted calls
companies that we or have not
previously done business with...credit card
companies, phone companies, or
anyone else that considers us an
"existing customer or a potential new customer!"
WE FEEL THAT YOU SHOULD NOT CHANGE
THIS AND JUST LEAVE INDIANA'S
LAW ALONE!

The FCC should not implement any proposal that
would lessen Indiana's Telephone Privacy law
protections.

Indiana's Telephone Privacy law has been very
effective for us, we actually have peaceful evenings
at home without annoying and unwanted phone solicitors.
We have only gotten two or three unwanted calls,
since we were put on the list.
This law very important to us by protecting a bit of
our privacy in a world today that exploits it so much anyway.
